

Filtration tailored to your needs

Take advantage of the convenience of ready-made filter cartridges. With a single movement, you remove the basket with the dedicated cartridges and clean or replace them. Depending on the filter model, you will find between 1 and 6 cartridges.

You can replace the cartridges according to your needs. Choose from 3 types of carefully formulated blends in convenient sachets. By using them, you will achieve tangible results, including reduced algae growth and/or crystal-clear water.

- STANDARD**
- replaceable filter wadding
 - efficient mechanical filtration

- CARBOMAX**
- replaceable active carbon filter wadding insert
 - additionally eliminates chemical impurities and discolouration from water

- PHOSMAX**
- exchangeable filter wadding with phosphate eliminator
 - additionally removes phosphates from the water, protecting the aquarium from algae infestation

AQUAEL

FZN PRO

Compose to your needs

Comfortable use

- Self-populating filter – convenience for first-time use and in the event of power failure
- Large knob for adjusting power – precision in performance setting
- Convenient filter cartridge basket* – easy to change
- Convenient filter position adjustment – fine adjustment
- Liftable casing, easy access to rotor – quick and simple cleaning and servicing

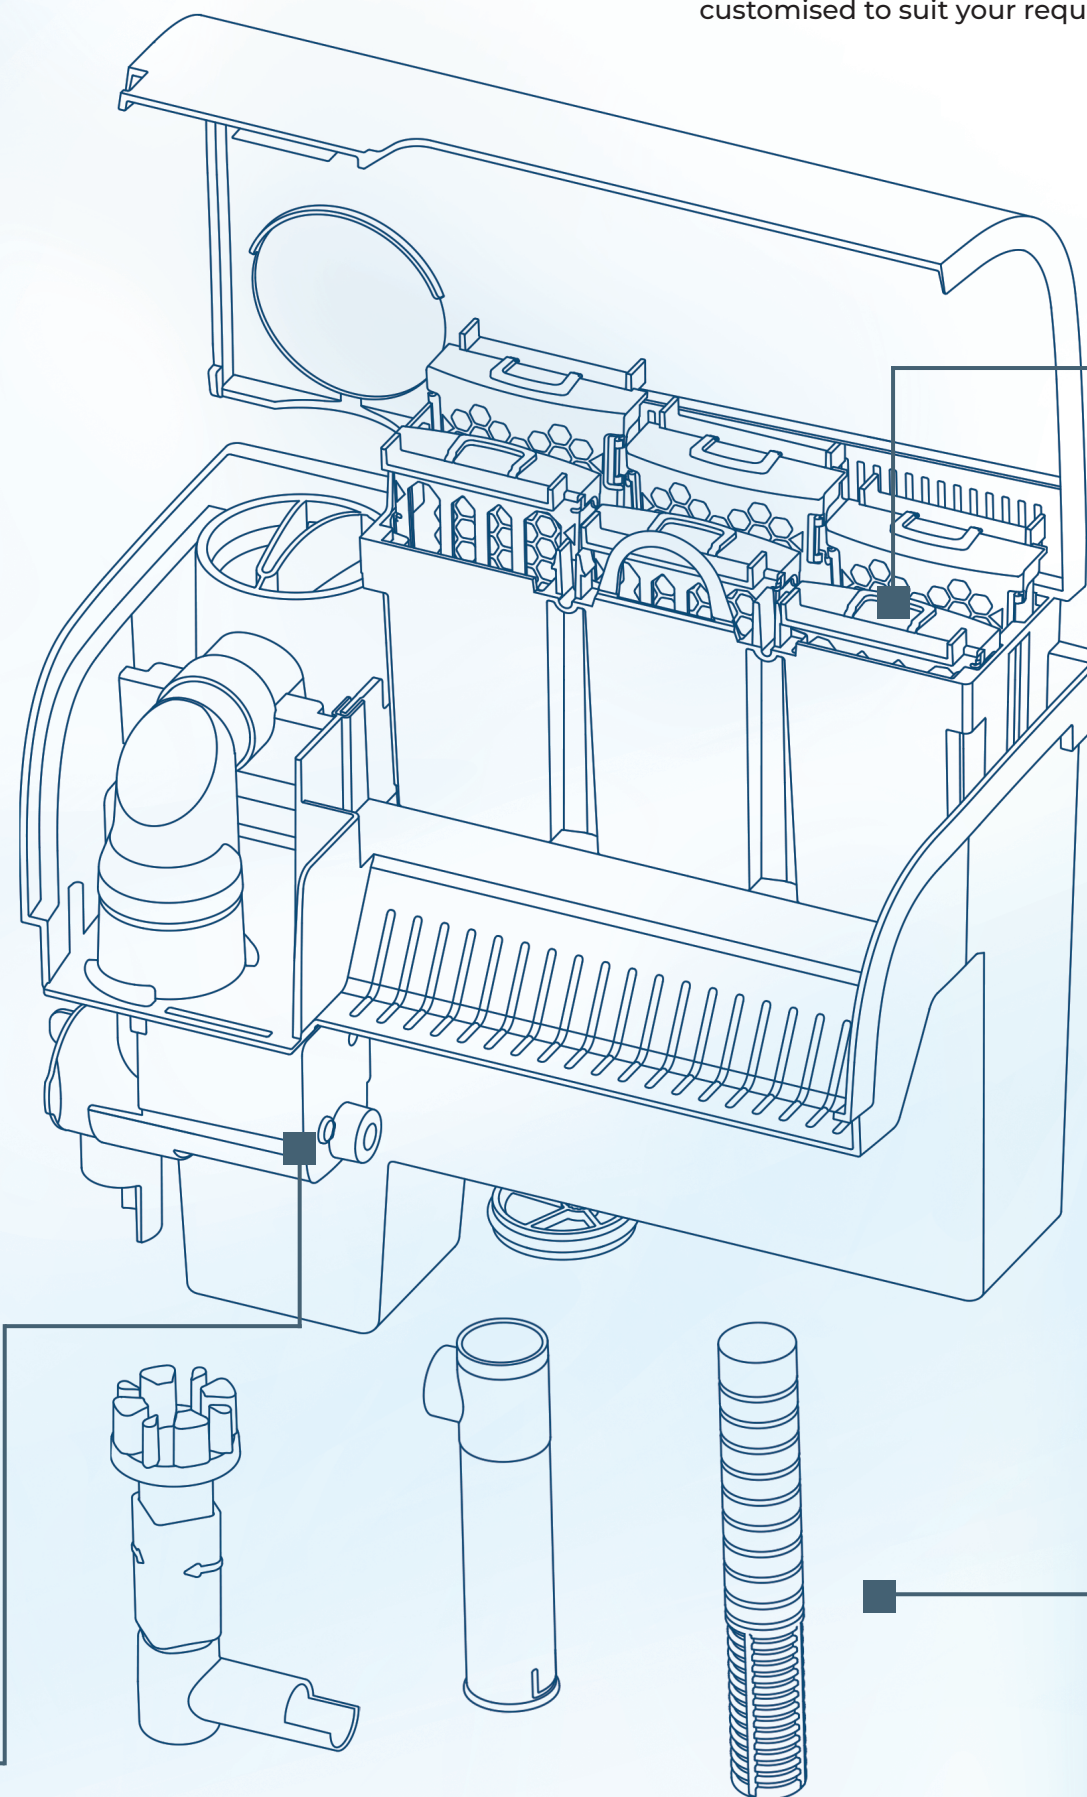

Runs as quiet as a whisper

- Motor under water – noise-insulated operation
- Holes in the enclosure – reducing the resonance tube effect
- Rubberised contact elements between device and aquarium – eliminate vibrations
- Outlet flush with the water surface – gentle wave effect

Quiet as a whisper, comfortable to use and easy to adapt to individual preferences – this is the new Aqual FZN PRO cascade filter.

When placed underwater, the motor operates extremely quietly and does not need to be flooded. The spacious container for filter media can be filled with convenient cartridges or customised to suit your requirements. Thanks to a range of facilities, it is a pleasure to use.

Adaptation to the individual needs of aquarists

- Capacious container for filter media – possibility of layering bulk filter media
- Possibility to combine dedicated cartridges with loose media – 2 in 1
- Dedicated filter substance cartridges – precision applied media

Comfort options

- Optional attached skimmer*, which does not require a separate cable – crystal-clear surface
- Telescopic adjustable* tube – perfect adjustment of the water intake

*Not applicable for the FZN PRO 400 model
