

AQUA TREND

TERRA TREND

mp

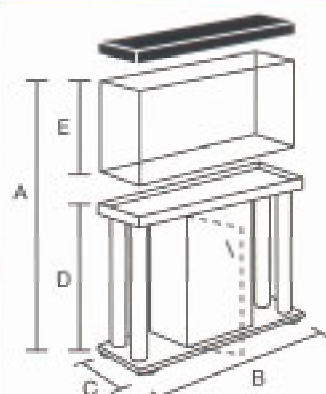

SMARAGD 100 *exquisit*

Fascinating optics in extraordinary elegance: The attractive combination accents the open character and brings to bear the aquarium dominantly.

Besides the high-grade SMARAGD 100 *exquisit*-types in beech/black or beech/blue the cupboard exists also as exclusive design-model with sympathetic maple-decor, silver-coloured columns and a door made of satinated glass.

A integrated system in the cover for the lights prevents condensed water from dripping down.

The lighting system is with a on and off switch.

Heating power 210 W

TOPAS 130

The combination is a highlight for each amateur of classic-modern living culture.

The cup-board fascinates by its clear lines, the unusual materials and a functional room division. Beech-decor with green or blue applications, satinated glass-doors and shelves as well as metallic brilliant tubes define the optical character.

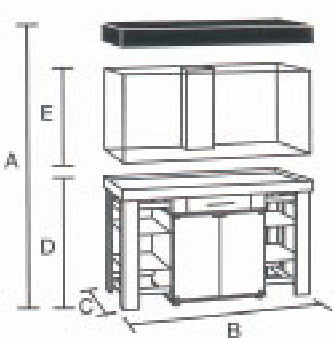

In the aquarium a central over-flow shaft overtakes

the inlet and outlet of water to the filter which can be connected easily at incorporated pipes.

To enable an optimal whirling the outstreaming is made on both sides of the water surface.

If desired the combination is available with a supplementary technics packet.

Besides the ensemble can be delivered after choice also with an open cover or a hanging-lamp.

MARINA

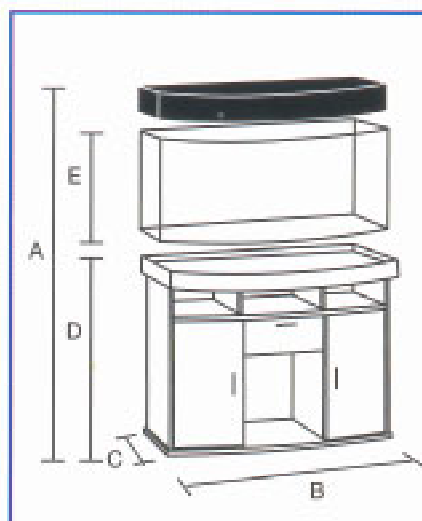

This name stands for two exceptional combinations where the high-grade cupboards in an attractive beech-decor catches the eyes immediately. Doors and drawer-blind will be accented by the plastically executed fronts and underline the charming character.

The covering plate of the cupboard is put towards the top and leaves with this an optically floating space to the aquarium to put the under water

world effectively in the center of interest.

At the same time further storage-space is at your disposal, supplementary to the spacious shelves.

The combination **MARINA Ligne** is equipped with the classical rectangular aquarium, while the model **MARINA Arc** shows an aquarium with a bended panoramic front.

EUROPE *Vague*

EUROPE

The cupboard shows character. With its marked lines, the sympathetic wooden decor and its high elegance this attractive combination gives a touch of mediterranean living-style.

Put on coloured applications accent the harmonic charisma of the warm beech or maple-decors.

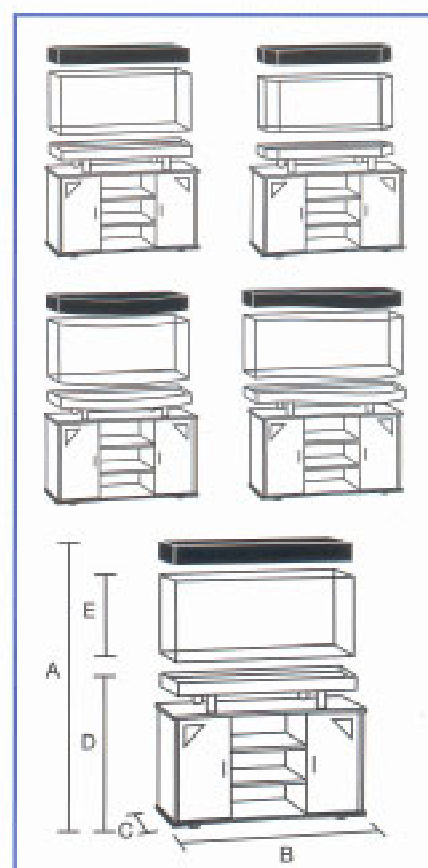

The surface on which the aquarium is placed, stands out against the cupboards corps and by

this the under water world seems to float.

With this the ensemble affects the senses with its accented lightness as a terse eye-catcher.

With the choice of different aquarium forms the EUROPE models correspond to individual claims and desires of arrangement.

The combinations are also available with the suitable technics-pack-et, if desired (see on page 19).

EUROPE

The models are available with 4 different aquaria which accent optically the overall picture of the combination. The colour of the VARILUX covering plates correspond to the

respective cupboard applications.

EUROPE Ligne shows the classical rectangular form as a harmonic unit.

EUROPE Hexago with oblique sides increases the field of vision.

EUROPE Arc accents with its bended panoramic front an effect of the aquarium profoundness.

EUROPE Vague looks fascinating with its unexceptional effect of the wavy front.

KARAT

KARAT 80

KARAT 100

KARAT 120/121

KARAT 150/200

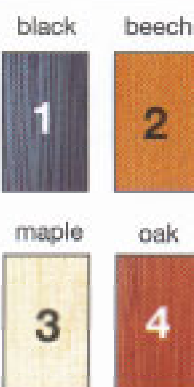

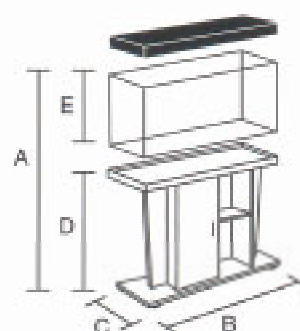

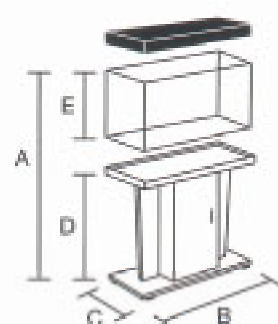

KARAT

Classical form and perfect function at a favourable price. The accented lines of the cupboard are responsible for the harmonic overall picture of these models.

The doors and lateral trapeziums can be changed against other wooden-decors or design-variants, if desired, like MARIN or SAPHIR.

The component parts are available as optional accessories (see p. 11).

KARAT		80	100	120	121	150	200

SAPHIR

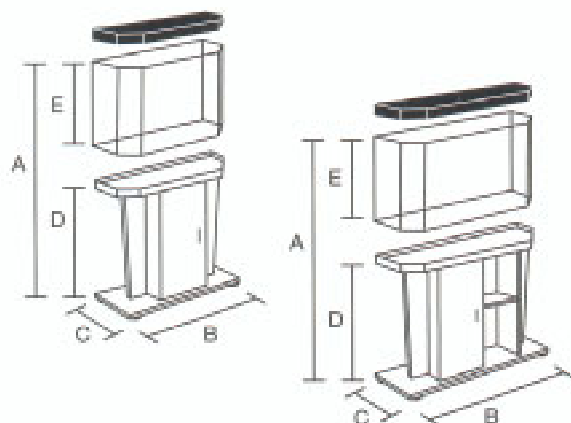

SAPHIR

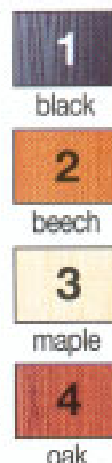

The elegant combination fits to every living-style with its harmonical decor-variants.

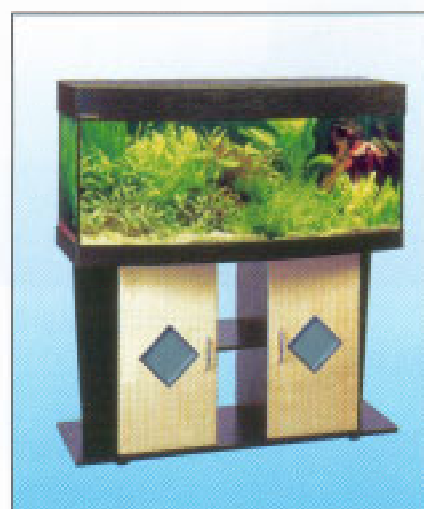

With its oblique front the aquarium shows an optically increased field of vision and more spatial dimensions.

Available are also separate doors and lateral trapeziums as accessories in further decors with which the cupboard can be created after special desires. A list of the supplementary component parts can be found on page 11.

SAPHIR		80	100	120

Decor		1/2/3/4	1/2/3/4	1/2/3/4

MARIN

With its bended panoramic front the spatial dimension of the under water world will be accented and an interesting effect of profoundness is reached in the aquarium.

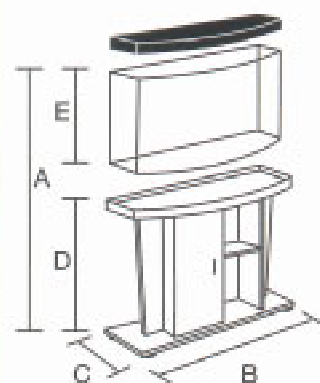

At the same time the openly created form of the cupboard accents the elegant character of the combination, which fits harmonically into each dwelling.

Besides the decor-types

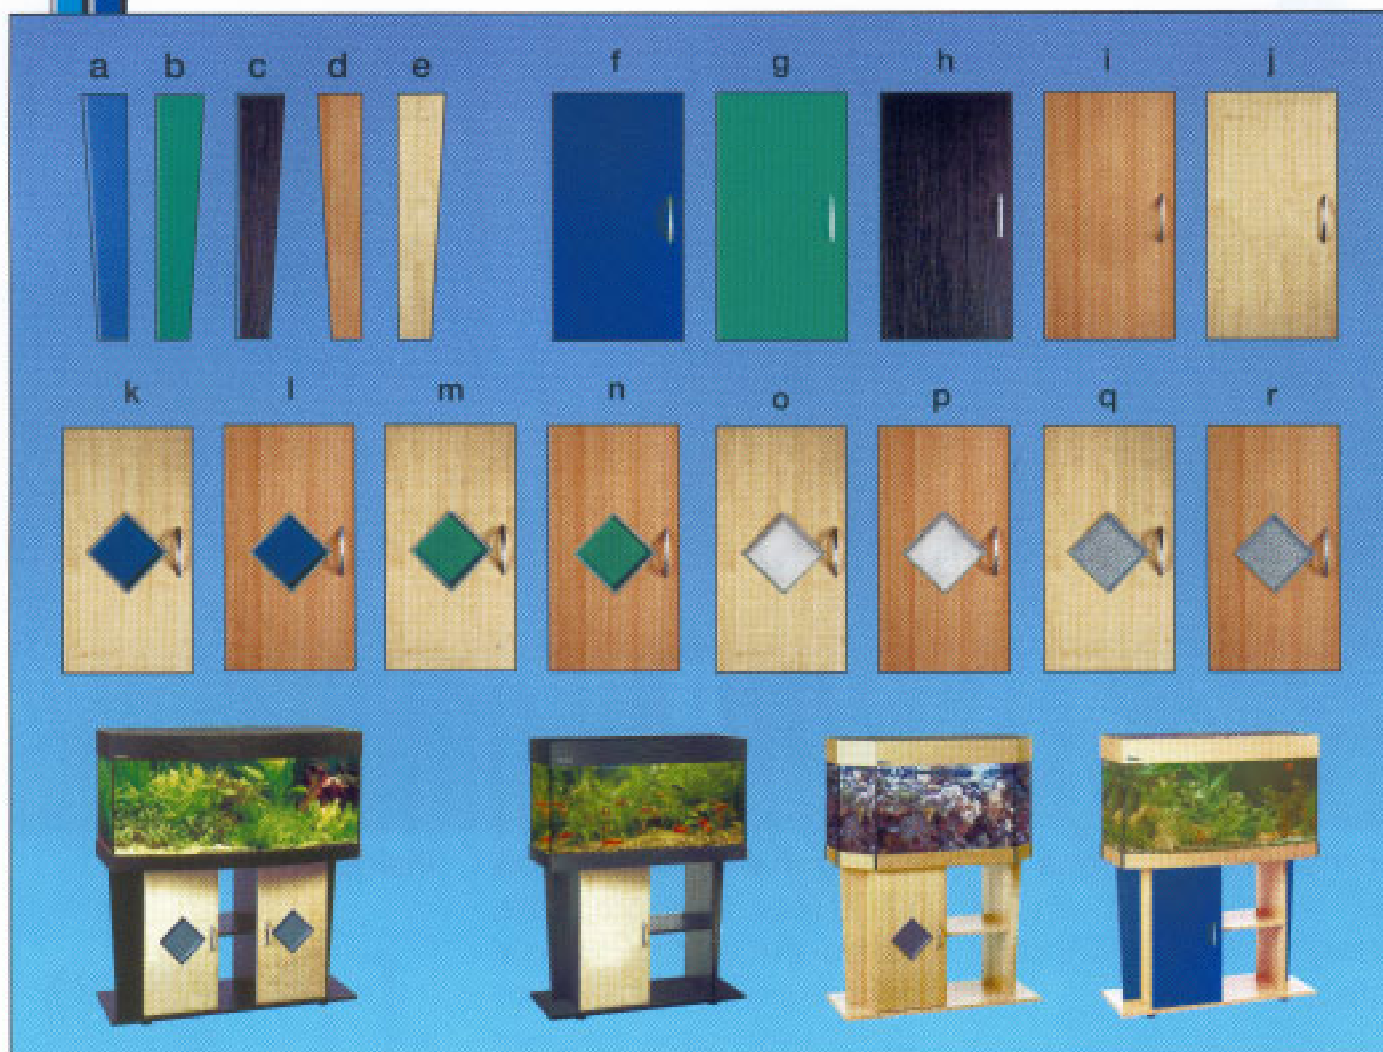

ash-tree black, beech, maple and oak there are available optional variants of component parts as separate accessories.

With the wide range of

supplement trapeziums and doors are offered numerous possibilities to set individual accents after special desires. A list with all parts can be found on page 11.

DOORS AND TRAPEZIUMS

The optional variants of component parts offer various possibilities of creation after special desires for all combination-types of KARAT, SAPHIR and MARIN.

Lateral trapeziums as well as complete doors with handle and fittings are available as supplementary articles. With these it is possible to create the colours and decors individually after own ideas.

With one grip it is possible to create an aquarium after own desires and to adapt it to the personal dwelling.

The various types of trapeziums and doors are available in the colours blue and green or in the wooden decors ash-wood black, beech and maple.

The door-elements are also available with rhombic colour-applications, with windows made of satinated glass or with elegant aluminium-inlets.

BRILLANT

The room-saving mp corner combinations offer large-scaled under water landscapes and fit into each dwelling.

With the lateral oblique fronts the field of vision will be increased and at the same time is reached a fascinating effect of profoundness. Decors: black, beech or oak.

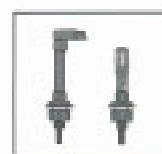

KRISTALL

The beautifully shaped octogonal combination KRISTALL is appropriate to be put in the middle of a room where it is an attractive eye-catcher from all sides.

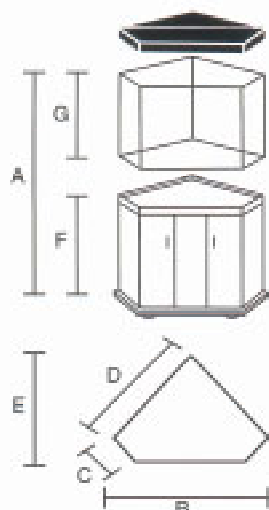

Decors: ash-tree, black or beech.

By using the integrated tube-connections the filter can be connected

easily and stays invisible inside the cupboard.

Firmly installed junctions for inlet and outlet of water from and to the filter (kit).

GTE Smaragd 131

GTE Smaragd 100

GTE Smaragd 101

GTE Saphir

GTE SMARAGD 131

The attractive terrarium-combination builds as room-devider a decorative focus of attention. Because of its high volume there are no limits for fantasy. It enables a proper arrangement with a good wall-planting and is also appropriate as a show-case for orchids.

GTE SMARAGD 100

The cupboard design accents the optical effect of the terraria which are available as combi-

nations in two executions. Functionally and quality correspond to highest claim.

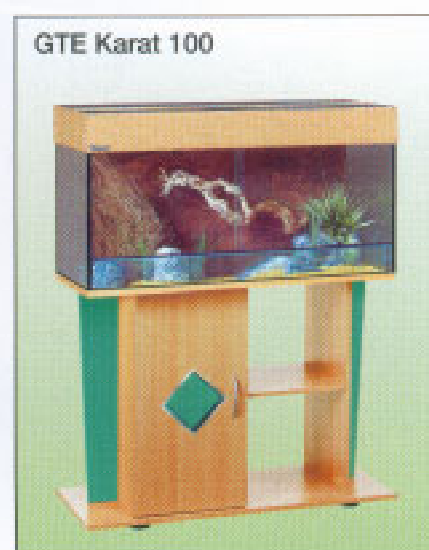

GTE SAPHIR

With its oblique front the elegant terrarium model

offers an optically increased view and shows more space dimensions.

Optional variants of component parts in further decors enable an individual creation of the cupboard (see page 11).

GTE Saphir	100 x 40 x 152	3/4/5/6

GTE TERRARIA KARAT

Attractive form, perfect function and a high-grade workmanship characterize the wide range of the terrarium-type KARAT.

Different sizes, executions and wooden decors offer the suitable combination for different uses and each dwelling.

The cupboard is available in the decors ash-wood black, beech, maple or oak; and besides it can be created, if de-

sired, individually with optionally available variants of component parts. You will find a list with changeable door-types and trapeziums on page 11.

The various terrarium sizes enables you to arrange properly almost all living spaces for tree- and ground-living animals.

With this each biotope can be created optimally according to the specific needs and claims for space.

Many models are also excellently appropriate as show-case for orchids.

All mp glass-terraria have an integrated ventilation and are equipped with sliding doors at the front.

If desired the combinations can be delivered completely with covering lamps in the same wooden decors.

A racket lock is available separately as a security closure for all terraria.

* Thermofilters, heating efficiency 210 W

REFLECTION SHEETS

Strengthens the exploitation of light of the neon tubes and improves the effect of profoundness upto the bottom-ground. Available in 6 different lengths for all actual aquarium lamps. Simple clip-mounting.

POLYSOFT

Aquarium pad out of special foam rubber material. Equalizes unevennesses of the surface and has a heat insulation effect.

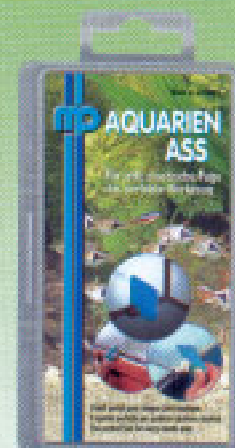

INCORPORATION LAMPS

Complete with junction-cable for supplement to existing VARILUX covering-lamps as well as other brands.

From 30 W with integrated electronical ballast.

THERMOMETER

For a permanent surveillance of the water temperature in the aquarium. Execution with suction caps for an easy fixing. Measuring range upto + 42°C.

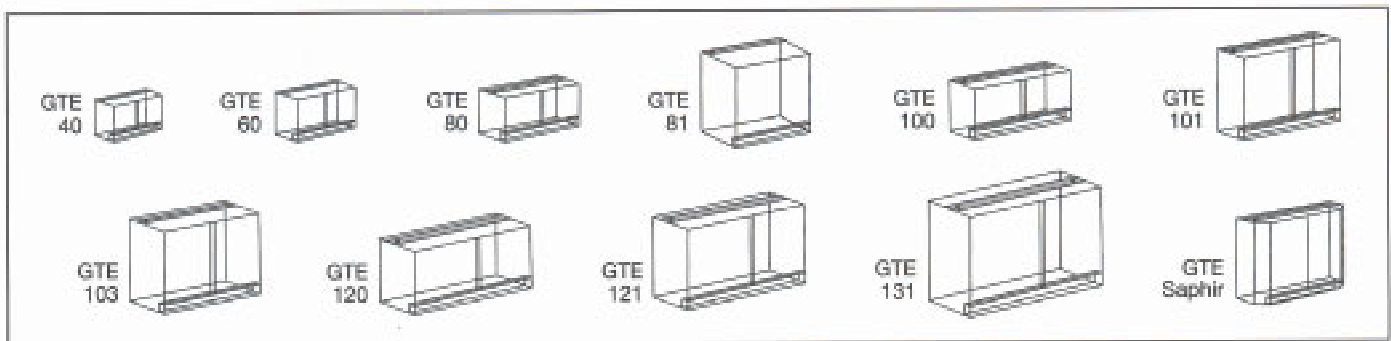

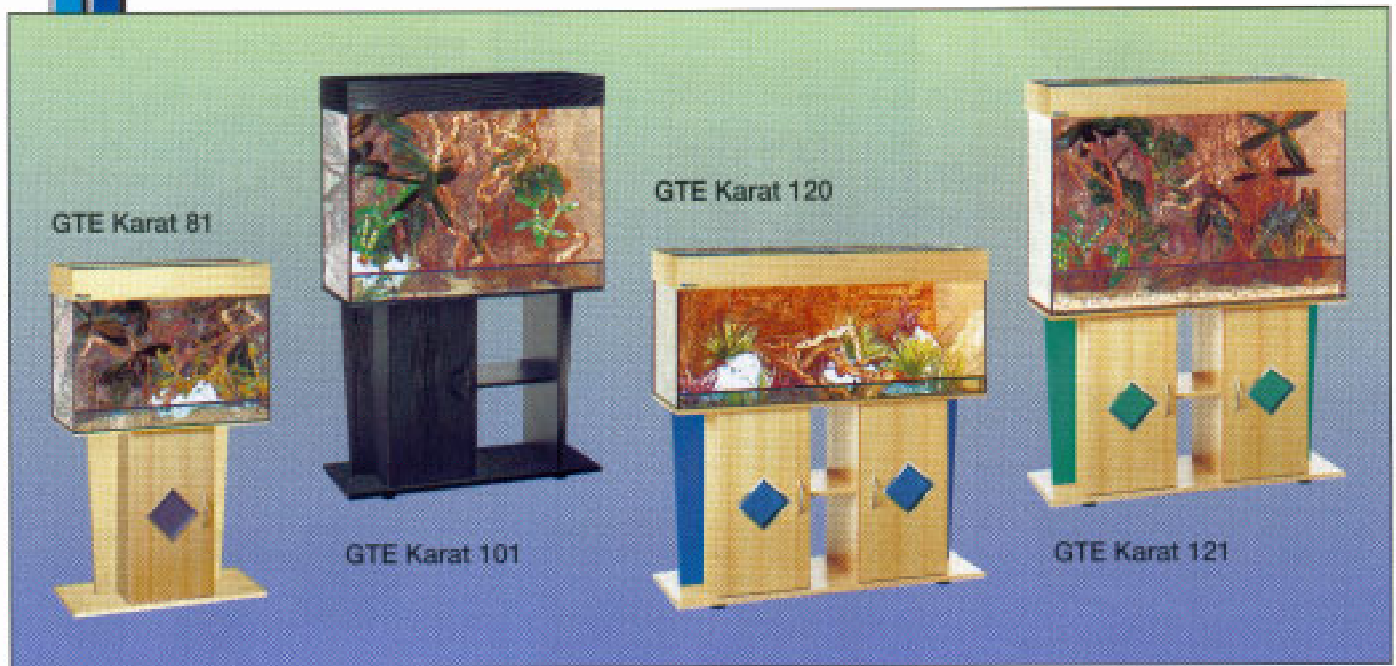

AQUARIUM-SILICONE

Practical cartridge for reparation and sealing; colour black or transparent. Two different sizes with 80 ml and 310 ml.

AQUARIUM ASS SPATULA-KIT

Four special spatulas for a perfect sealing of aquaria, glass, tiles etc. Appropriate for all elastic joint material.

With many angular possibilities, radiusses and hollow grooves.

GTE GLASS TERRARIA

As a supplement to the combinations the complete series is also available as separate GTE glass terraria without cupboard and lamps.

The sizes correspond to the desired uses.

This means biotopes for breeding, spiders, tropics, deserts, ground- and also for tree-living animals.
